WARNING – SAFETY POLICY

Pfeifer Industries prohibits the use of our products and/or the products that we distribute that fall outside of the manufacturers design guidelines and specifications. Specifically, the following uses ARE FORBIDDEN due to the risk of serious injury or death:

AIRCRAFT APPLICATIONS:

Pfeifer Industries supplied products including but not limited to belts or pulleys ARE NOT designed, manufactured, or tested for use on AIRCRAFT APPLICATIONS, including aircraft propeller or rotor drive systems or in-flight accessory drives and all manned or unmanned airborne applications of any type.

LIFT AND BRAKING SYSTEMS:

Pfeifer Industries supplied products including but not limited to belts or pulleys ARE NOT designed, manufactured, or tested for use on LIFT AND BRAKING SYSTEMS. Lift and Braking systems have special considerations. BUYER has sole responsibility for the selection and testing of products for any intended use.

GENERAL:

It is imperative that the correct timing belt pitch/ timing belt tooth profile (BELTS) be used only with the matching timing belt pitch / timing belt tooth profile (PULLEYS). Reduced timing belt life will occur when using timing belt drive pulleys with SUBMINIMAL number of teeth. PFEIFER INDUSTRIES cannot be liable for any failure due to improper use.
